## Safe Travels! - Interra offers some of the best safety travel tips this year.

Whether you're traveling domestically or internationally, safety should be a top priority. According to [travelsafeabroad.com](https://www.travelsafeabroad.com), they offer 25 travel safety tips. Here are 3 of their helpful tips for you to remember;

### 1. Don't Flash Your Valuables.

Whenever you go on a vacation, if you leave your valuables on display, you'll be telling others that you're an easy target with a good stash. Laptops on car seats, mobile phones in your back pocket, and wallets on the table are all indicators that you have wealth or are being careless. To avoid creating this persona, keep your valuables hidden from plain sight.

### 2. Share Your Itinerary With Family and Friends.

It doesn't matter if you're going on a short weekend trip or a month-long

vacation, you should tell your friends and family where you are going and when they should expect you back. This isn't so you can show off your exciting plans, it's so they can help if something goes wrong.

### 3. Tell Your Financial Institution Where You're Going.

This tip may not seem like a safety issue but it can easily get you stranded if ignored. Financial institutions monitor the use of your account to ensure that money laundering and fraud haven't been committed. When you travel to a new location and start using your card, your credit union will know that something new has occurred. If they believe this transaction is suspicious, the account may be frozen.

Don't interrupt your Mastercard® debit and credit card access while traveling! Complete the travel notice in your Interra online banking, through the web [here](#) or call us at 574-534-2506.

**Helpful tip:** You can preschedule a travel notice right in your Interra online banking. Check it out!

# GET A CHECKING ACCOUNT THAT CHECKS ALL THE BOXES.

**Deposit accounts are different here.**
